

Laboratory Showers

Download the latest version of the catalogue concerning laboratory showers here: [Download](#)

FSP-Tech® delivers safety showers for all kind of applications in laboratories.

We deliver a wide range safety showers for your applications in hospitals, universities, research and development in the pharmaceutical industry. Our showers are available with integrated eye washes as well.

Laboratory showers are available for

- wall mounted
- ceiling mounted
- above-door and
- ground installation

The design meets the needs of the user and planers in laboratories.

The Laboratory showers and shower / eye combinations have

- large stainless steel ball valves with optimal diversion and stainless steel pull rod
- a stable piping
- a high performance shower head constructed in accordance with DIN EN

Most Labortory showers are in accordance with DVGW and have included automatic flow regulators.
